

## ***Cetacean & Seabird Identification Workshops***

*Biscay Dolphin Research Programme is delighted to announce that following on from the success of our 2009 workshops, we will be running 7 Cetacean & Seabird Identification Workshops on the P&O cruise ferry 'Pride of Bilbao' in summer 2010.*

*Biscay Dolphin Research Programme (BDRP) has been conducting whale, dolphin and seabird surveys of the English Channel and Bay of Biscay each month, year-round continuously since 1995. BDRP is an award-winning project within the established charity Marinelife that aims to further the conservation of whales, dolphins, seabirds and other marine life through scientific study and educational activities.*

*Because of the work we have undertaken, the English Channel and the Bay of Biscay is now recognised as one of the most important areas in the world for whales and dolphins!*

*Come and join some of the most experienced cetacean and seabird researchers in the UK for a fully interactive workshop where you will learn all the basic skills needed to observe and identify these fantastic animals at sea.*

*This workshop is ideal for anyone with a general interest in marine wildlife, students studying Marine Biology or similar subjects, people who want some firsthand experience of field work as well any prospective Marine Mammal Observers (MMO's).*

### ***Workshop Dates:***

*3-6 June 2010*

*12-15 June 2010*

*18-21 June 2010*

*3-6 July 2010*
